EFFECTIVE SPECIFICATION SELLING

Becoming a Trusted Supplier

OVERVIEW:

Gone are the days of 'features and benefits' selling to design specifiers, it's not enough to get you over the line in this competitive construction market. To get specified, stay specified and build relationships your skills need to go beyond knowing your product. Design specifiers want you to understand their project needs and challenges, provide a best fit solution and become someone they can trust and rely on. This is exactly what the Effective Specification Selling Seminar focuses on – how you can become a trusted supplier.

TRAINING BACKGROUND:

To develop this seminar we have gone straight to the source, we've surveyed design specifiers across New Zealand asking them what they want from product suppliers when it comes to working with them on their projects. We also conducted interviews with top design specifiers to get some real life insights and stories on their experience working with product suppliers, who their favourite product suppliers are and what makes them stand out from the crowd.

TRAINING AGENDA:

Navigating the specification sales cycle – It's important to look at things from a 'project specific' perspective so we look at:

- » The journey a project takes from start to finish
- » What the design specifiers role is at each stage and what they are wanting from product suppliers
- » What other construction professionals have an influence on a specification (developers, main contractors and subcontractors)
- » How you can track your spec to ensure you stay specified

Marketing to Design Specifiers – We'll help you understand the best way to market your products to design specifiers.

- » The difference in approaching Gen Y to more senior design specifiers
- » What are the most preferred marketing channels of design specifiers
- » How to start your social media strategy
- » Understanding BIM
- » How to run seminars effectively in design specifier firms (CPD)
- » How to make an effective first contact with a design specifier

Conducting impactful meeting – You only have a small amount of time to make an impact in a meeting with a design specifier, we'll show you how to add the most value.

- » What information design specifiers want to receive before a meeting and during a meeting
- » How to talk about the value of your product over the price
- » Conveying your unique selling points over your competitors
- » Excellent communication – how to connect and engage your audience in presentations and meetings
- » Creating engaging content to use in your meetings and presentations – topics design specifiers told us are important and interesting to them
- » Moving from a product centric approach to a client centric focus

Building relationships – How to build long term relationships with design specifiers so you are not just working with them on one project but many

- » How to best follow up with design specifiers after a meeting
- » Tips on building long term relationships and positioning yourself as a trusted supplier
- » How to create more project leads through utilising referrals

TESTIMONIALS:

"Just wanted to say a big THANK YOU for allowing me to attend your course yesterday. I am always open to learning more and am "mature" enough to realise that no matter one's age, one can always improve and modify one's behaviour based on the industry and customers you are dealing with." - Window Treatments

"Ashleigh was great! She has given me the confidence to use BCI as a tool to help get my product specified and track projects through all the different stages."

- Asona

"It was so nice to be injected with some inspiration. It's good to get back to basics, you get so caught up in the "JOB" you forget about all the little things that make a difference, you end up focusing only on the clients that are giving you all the work, when there are so many more opportunities to change lives with the super powers of Tile Warehouse."

- Tile Warehouse

"I enjoyed and was inspired by your BCI Academy seminar, I felt it was a fantastic presentation, and I am looking forward to using the principles and insights you presented."

- Concrete Plus

"It was great to learn things from the architects perspective. This course has been great in helping me focus on being consultative and having a personal approach with my clients - being a trusted advisor not a sales person!"

-Dulux

"Great course! Loved the comments from actual architects, such valuable insights."

- Fifth Wall

"A value packed seminar with fantastic insights and takeaways on how to master the art of relationship selling to designers. Well done Ashleigh!"
