

EFFECTIVE SPECIFICATION SELLING

Becoming a Trusted Supplier

OVERVIEW

Gone are the days of 'features and benefits' selling to design specifiers, it's not enough to get you over the line in this competitive construction market. To get specified, stay specified and build relationships your skills need to go beyond knowing your product. Design specifiers want you to understand their project needs and challenges, provide a best fit solution and become someone they can trust and rely on. This is exactly what the Effective Specification Selling Seminar focuses on – how you can become a trusted supplier.

TRAINING BACKGROUND

To develop this seminar we have gone straight to the source, we've surveyed design specifiers across New Zealand asking them what they want from product suppliers when it comes to working with them on their projects. We also conducted interviews with top design specifiers to get some real life insights and stories on their experience working with product suppliers, who their favourite product suppliers are and what makes them stand out from the crowd.

TRAINING AGENDA

Navigating the Specification Sales Cycle

We'll look at the journey a project takes from start to finish, who each decision maker is along the way, and what they value when it comes to your products and services.

Marketing to Design Specifiers

We'll help you understand the best way to market your products to design specifiers to ensure you stand out.

Conducting Impactful Meetings

You only have a small amount of time to make an impact in a meeting with a design specifier. We'll show you how to add the most value.

Building Relationships

How to build long term relationships with design specifiers so you are not just working with them on one project, but many.
